

This will give you 1 POW tag. Make sure to turn off "fit to paper" in the printer settings. Cut at crop marks shown on the front of the form. Note that the two top corners are also cut off. The original tag was made of a plastic coated fabric material. It had a hole punched where the + is. It had a metal grommet & a cardboard reinforcement piece. This could probably be duplicated by a banner company. For most purposes, this can probably be printed on card stock & a reinforcement ring stuck on both sides of the hole. Print this form onto a piece of white card stock. Flip the page over. Then print the back side artwork onto the back.

PRISONER OF WAR

Date of capture _____

Place (or sector) of capture _____

Unit making capture _____

(OVER)
